

CHILDREN, SCHOOLS & FAMILIES BA (HONS) TOP-UP

Course Mode	Degree-level
Location	Milnthorpe Road Campus (MRC)
Duration	1 Year
Level	6

Course Overview

The BA (Hons) Children, Schools and Families allows you to 'top-up' your Foundation Degree (Level 5) to a full BA Hons Degree (Level 6). The course looks at children in a broad context and prepares you for a professional career within the children and young people's workforce.

The BA (Hons) Children, Schools and Families Top Up is awarded by the University of Central Lancashire, UCLan.

The full-time course runs one day per week over one year and is based at the Main Site on Milnthorpe Road, Kendal.

Modules on the BA(Hons) CSF top up programme include:

International Perspectives on Children's Lives: This module aims to provide the students with knowledge and insight into the issues facing children in an increasingly interconnected and globalised world. The focus is on the wider globalised context in which childcare policy and policy responses are developing.

Children's Services & multi agency working: The module aims to develop a critical appreciation of multi professional working and the current dynamic context in which this is developing. Students will develop a critical understanding of the professionalization of the children's workforce and the implications for practice.

Learning from Work in Children's Services: This module draws on students' experiences of working with children and YP. If you are not already in a relevant work setting, you will need to find a suitable work placement for a minimum of 12 days. The module will help you to apply your understanding of national policies, legislation and skills frameworks to your own working practice and consider your role as a 'change agent'

Learning, Curriculum and Assessment: The module is concerned with learning, curriculum and assessment and the relationship between these concepts. It focuses on the process, content, delivery and outcomes of the curriculum and how each informs the other. Ideas around what counts as valid knowledge will be explored and critically evaluated.

The Education of Vulnerable Young People: This module is intended to give students an insight into the educational experiences and attainment of particularly vulnerable children and young people, such as children who have been victims of abuse, children who have become involved in crime, children in care, young carers, and teenage mothers. You will explore the underlying issues associated with the vulnerable situations children may find themselves in, and explore the consequences of these difficulties upon children's educational experiences, achievements and prospects.

Dissertation: You will develop an independent project (6-8,000 words) within a chosen area of interest. You will be supported by a dissertation supervisor throughout the process.

The course is delivered through traditional lectures, seminars, workshops, peer support, reflective practice and independent study.

Assessment throughout the course will be through written assignments, essays, reports, oral presentations, portfolios and a dissertation. These will be marked in line with University of Central Lancashire regulations.
